If you have a qualified immigrant status, you often must pass the 5-year bar before becoming eligible for Medicaid.

What is the 5-year bar?

Federal law requires many qualified immigrants to wait five years before becoming eligible for Medicaid. In Washington, Medicaid is called Washington Apple Health. This 5-year waiting period is known as the 5-year bar. This 5-year waiting period usually begins when the person receives their qualifying immigration status, not when they entered the U.S. Some immigrant statuses are exempt from the 5-year bar.

Who is exempt from the 5-year bar?

Our Equity Statement

Equity is fundamental to the mission of the Washington Health Benefit Exchange. The process of advancing toward equity and becoming anti-racist is disruptive and demands vigilance to dismantle deeply entrenched systems of privilege and oppression. While systemic racism is a root cause of many societal inequities, we must also use an intersectional approach to address all forms of bias and oppression, which interact with and often exacerbate racial inequities.

To be successful, we must recognize the socioeconomic drivers of health and focus on people and places where needs are greatest. As we listen to community, we must hold ourselves accountable to responding to recommendations to remedy inequitable policies, systems, or practices within the Exchange's area of influence.

Our goal is that all Washingtonians have full and equal access to opportunities, power and resources to achieve their full potential.
