

How do I pick a plan level?

Think about how you and your dependents will use your insurance in the coming year.

Silver	Gold	Bronze
<ul style="list-style-type: none">▶ Have a chronic condition like asthma, diabetes, coronary artery disease or cancer▶ Have a planned surgery coming up▶ Often visit specialists or your primary care physician▶ Are planning to have a baby or have small children▶ Take expensive brand or specialty medications▶ Qualify for Cascade Care Savings		<ul style="list-style-type: none">▶ Are healthy and take few expensive medications▶ Only occasionally see a doctor▶ Can manage the cost of a higher deductible and maximum out-of-pocket expense should you or your family have the need for more care▶ Don't qualify for premium tax credits or cost-sharing reductions

Importantly, ALL Washington Healthplanfinder plans cover the same [essential health benefits](#).

While costs are important, make sure you choose coverage that fits your needs and gives you peace of mind. For information or to get help choosing a plan, use your phone to scan the QR code to find [support in your area](#).

New for 2026 ★

Starting 2026, customers will have the option to select **Vital Gold plans**. For most customers, Vital Gold plans have a closer monthly cost to what they previously paid for Silver plans.

Silver may not be the best plan for most customers anymore. Customers with higher incomes and who are not eligible for federal savings will not see Silver plans when shopping. For most people, Gold plans will now be less expensive and have higher value than Silver plans.
