

# ▶ Quick Start Guide to Applying for Health Coverage

## GET COVERED. REMAIN COVERED.

1

### GATHER YOUR INFORMATION

Before you start your application, gather the information below for all household members applying for coverage:

- Legal names
- Birth dates
- Social Security numbers
- Income before taxes/deductions
- Tax filing status (this is what you report on your IRS tax return)
- Proof of income (if your income has changed since you last filed taxes)
- Current health insurance information (coverage dates, group number, policy numbers)
- Proof immigration status if you're a legal permanent resident
- Proof of tribal status if you're a registered American Indian/Alaska Native

Make sure you add all household members, even if they don't need coverage. This information helps us determine if you're eligible for free or low-cost health insurance.

2

### NEED HELP?

You can get free, in-person help from a navigator or broker. They can help you fill out the application and enroll in coverage.

You can also call our Customer Support Center at 1-855-923-4633 for help with the application process.

3

### APPLY

When you're ready to apply, set up an account on [Washington Healthplanfinder](#). Use the information you gathered to fill out the application.

After you submit your application, you'll find out if you qualify for a Qualified Health Plan, tax credits, or free coverage Washington Apple Health.

4

### PICK A PLAN

Search for a plan that fits your budget and needs.

Click "Health Care Provider" to search for plans where your doctor is in-network.

Customize your search by filtering plans by premium, deductible, out-of-pocket maximum, insurance company, metal level, and more. Compare up to three plans at once.

5

### YOU'RE COVERED

Once you've finalized your plan and paid your first bill, you'll get information from your insurance company about your new coverage.
